COMPANY TIMELINE

COMPANY TIMELINE

Our journey began with a profound question posed by our visionary founders. Why are so many Nigerian graduates unable to secure employment? This seemingly problematic question revealed a crucial opportunity for solutions and ignited the birth of Debussa Consulting, an organization committed to addressing skills gap through training and development. From our humble beginnings at Ansar Plaza, Mpape-Abuja, we embarked on a transformative journey that not only reshaped the landscape of workforce development but spurred a significant rise in employment opportunities amongst those we trained.

Neomatrix was officially registered and swiftly began operations as a training institution. The company subsequently expanded its offerings to include cybercafé and business centre services within the Mpape area in Abuja.

2004

2007

An official team was formed, marking the beginning of a dedicated effort to drive the mission forward and expand our impact.

2008

As we progressed in our vision, we made the strategic decision to transition the business name to Neomatrix Techno Link Ltd upon discovering that "Debussa" was unavailable for CAC registration.

Neomatrix became the pioneering provider of broadband internet services in Mpape-Abuja and its surrounding areas, revolutionizing digital access and connecting the community to new opportunities for learning and growth.

2009

We expanded our reach by becoming a recognized member of the Federal Capital Territory Department for Mass Education (FCT-DME).

During this period, we collaborated with schools and religious organizations to raise awareness about the importance of digital literacy amongst young people. By the end of this phase, we had successfully delivered in-person training for our first 2,000 participants.

**2010
2012**

As our influence grew, so did our capacity. We secured a second location at No 11 Bumbuna Street, Wuse Zone 1-Abuja, and forged partnership with National Directorate of Employment (NDE).

**2013
2015**

This collaboration focused on providing in-person training in all digital literacy, as well as entrepreneurship, and business development, raising the total number of individuals trained to 4,000 by the end of 2015.

2017

Recognizing the need for more space, we consolidated our operations by moving to a larger facility at No 14, Sunyani Street, Wuse Zone 1-Abuja. This enabled us accommodate more trainees and meet the rising demand for our programs.

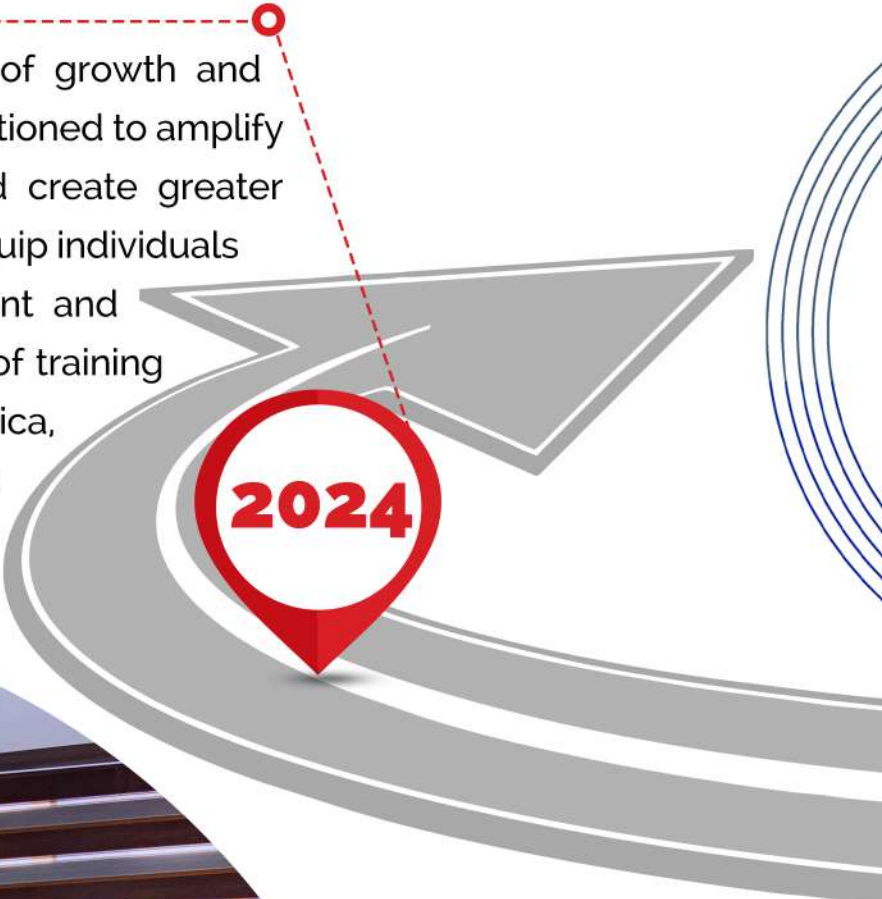

2018

We embraced a new chapter in our evolution by rebranding from NeoMatrix Ltd to Terraskills Learning Systems Ltd and expanded the team by bringing on consultants to help develop our innovative learning programs. This pivotal year saw the launch of our flagship Terraskills Career Advancement Programme (T-CAP), featuring over 300 specialized courses. We also introduced key programs such as the Graduate Employability Skills (GES), Workplace Innovation and Skills Enhancement for Productivity (WISE-P) and 21st Century Ready Teachers (TCRT) Programme amongst others.

Terraskills broadened its service offering, establishing solutions such as Jobprimers Recruitment Solutions, Terra Spaces, Terra Inspire and Terraskills Research and Consulting Services amongst others.

As Terraskills enters a new era of growth and elevation, we are strategically positioned to amplify our story, elevate our brand and create greater awareness. Our goal remains to equip individuals through training, skill development and learning with an ambitious target of training millions across Nigeria and Africa, turning each participant into a lifelong friend.

**2024**

MISSION

To be a Human-Centred Organization (HCO) that delivers cutting-edge solutions, empowering individuals, families, employees and organizations to achieve their learning, growth and development goals.

We are committed to providing cost-effective, efficient and high-standard methods, processes and technologies, supported by a dedicated team of professionals. We aim to help you foster a lifelong partnership of happiness.

VISION

To have a friend in every home.
